

Prophecy to Dr. Thompson (about Apostolic Anointing) Unknown **July 7, 1994**

The Lord spoke to my heart and says that Dr. Thompson has an Apostolic Anointing on him.

and they said what is that, one that raised up and train to teach others, a sent such as a missionary.

God is not only going to expand the borders of the training ministry that you have but also that Apostolic Anointing of being a sent one is resting upon you in a fresh new mantle.

And that God is going to begin sending you into places where the flow of the Holy Ghost and the depth of the Spirit that you have experience is going to be going into virgin territory into churches and into ministries where pastors are literally dying on the vine so if they don't get what God has placed within you that their ministries never going to reach the full extent of what they should be.

And God said its almost going to be like you are going to be a spiritual father over them, nurturing them, and guiding them in those things.

It getting ready to be started - you touched a little bit of it - but it is like a iceberg - all you have seen is the tip above the waters but when you get in it, it is so big, if God would reveal all of it to you, even those around you would doubt it, wouldn't believe it.

But the Lord said to hang on to it.

You have been faithful and it is going to come to pass and many will be bless by your obedience.
